Butterfly effect

2024-2025

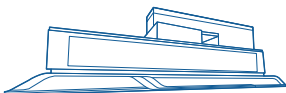

The butterfly effect is the name given to the fact that small changes in the initial data of a situation can bear large and unexpected results.

The flutter of a butterfly in the Amazon rainforests can cause a hurricane that wanders half of the world. Even the smallest actions and decisions have the power to significantly influence the flow of life. Our choices or actions about the size of a butterfly's wing can create a much better future.

This is why we adopted the slogan of "the butterfly effect" for the university hoping that this little step will bear great results in the future, and named it as "Atlas University".

APPLY NOW

Istanbul Atlas University has completed its foundation year in 2018 under the Turkish Balkan Education Culture and Health Foundation. Our university has started its academic life in 2020-2021, taking its strong place in the Ministry of Higher Education System.

Atlas University provides education in 62 different programs in total, including 26 undergraduate programs under 5 faculties, 20 master's

programs, 3 Ph.D. programs under 1 institute, and 13 associate degree programs under 1 vocational school. Atlas Vadi Campus is at the service of our valuable students with its specific laboratories, rich library, conference hall, and equipped R&D centers that host scientific research projects. In addition, modern campus life is offered to our students with large spaces and equipment that allow social, cultural, and sports activities.

ABOUT ATLAS

Research Attentive University

Our university ensures that the scientific potential is transferred to the industry by encouraging the R&D studies of its academicians and students. Academicians and students have the opportunity to work on their industrial production projects in University Research Centers and Faculty Laboratories. These projects are introduced to investors through the Technology Transfer Office (TTO). The office assists in-licensing and commercializing projects. Istanbul Atlas University continues to work rapidly to design research, commercialize intellectual property rights, and increase the entrepreneurship and innovation index.

LABORATORIES

Our laboratories are prepared according to the needs of the university education programs and departments allowing students to put their theoretical knowledge into practice under the supervision of academicians.

Within the emergence of applied courses during the distance education processes Atlas Glass had been brought into service so that students could easily transfer their applications done in the technical laboratories and establish a practical follow up.

ISTANBUL ATLAS UNIVERSITY FACULTY OF MEDICINE, (MEDICINE HOSPITAL)

Istanbul Atlas University Faculty of Medicine, Medicine Hospital is a reputable health institution that has gained the trust of its patients by providing quality health services for more than 20 years and has been instrumental in the healing of many patients with its successful diagnosis and treatment processes; It continues to serve our students as a pioneering and leading institution in the health education with its 450-bed capacities, 18 operating rooms, one of which is hybrid, 400 thousand polyclinics and more than 30 thousand surgical services per year.

ISTANBUL ATLAS UNIVERSITY FACULTY OF DENTISTRY, (DENTISTRY HOSPITAL)

Istanbul Atlas University Faculty of Dentistry, Dentistry Hospital is planned to serve in eight main branches of dentistry with 60 units, 2 operating rooms, and a technological dental laboratory on a 3600 m2 area in Atlas Vadi Campus. Our students will have

the opportunity to complete their applied courses and internships at our Faculty of Dentistry Hospital. Our hospital is structured according to the full isolation model with negative pressure infrastructure, taking possible epidemic diseases into account.

STUDENT CLUBS

Many clubs are organized to assist our students in their social, cultural, sportive, artistic, and personal development activities. Clubs operate under the consultancy of our academic and administrative staff. These clubs create friendly environments that allow students to spend time in line with their interests to develop their hobbies or acquire new hobbies during extracurricular times. Club members improve their communication, teamwork, and organizational skills through the events they organize. Our university has more than 30 student clubs and these clubs will increase with new activities to be established by students in the coming years.

International Opportunities

Our university goes over international protocols in which academicians and students can engage in educational international activities abroad. Thanks to the collaborations made in this context, periodic or long-term educational activities, research projects, and internships are planned with universities and research centers. Our students who study abroad through exchange programs such as Erasmus+ and Global Exchange will gain social and professional experiences by getting to know new cultures.

PROF. DR. YÜKSEL TENEKECİOĞLU CENTRAL LIBRARY

Prof. Dr. Yüksel Tenekecioğlu Central Library is located in an area of 2500 m². Our library has more than 10 thousand physical materials, bibliographic citation databases, and programs for plagiarism analysis that our students can use in their research activities. Our library provides service 24/7 with its

wide terraces, has 21 independent groups, and individual study rooms, a seating capacity of 350 people, and 60 research computers provide an environment that encourages research to our students and academicians with its aesthetic and ergonomic structure.

CAREER CENTER

We enable our students to gain various business skills with the help of our Atlas Career Center, increase their key competencies, gain individual awareness and take the first step in business world relations within the scope of internship and part-time work to shed light on the reflection of the professional world.

CAMPUS LIFE

Atlas Vadi Campus offers you a modern campus life with its indoor and outdoor facilities, summer cinema, sport fields, gyms, and beverage establishments on its surrounding streets, located in the center of Istanbul. Atlas Vadi Campus also provides the opportunity to participate in cultural activities with many social opportunities in its surrounding areas.

WHERE IS ATLAS VADI CAMPUS?

Our campus area is located in the Vadi Istanbul region with a short distance to the centers of Istanbul such as Taksim, Şişli, Sarıyer, Beşiktaş, Levent, and Maslak; in a close distance near to Rams Park, Türk Telekom Stadium, Vadi Istanbul and TEM Highway. Transportation services are also provided to our students

with our ring services departing from the designated points to the campus as well as from the campus to the designated points.

In addition, our students and guests can easily reach our university by using public transportation (Bus, Mahmutbey - Mecidiyeköy Metro, Minibus, etc.).
